

# CUSTOM METAL *Gutter* Products

## *Gutter Sentry, Continuous Hanger and Cover in One* *for New Gutter Installation, and Retrofit for install on Existing Gutters.*

*Patented Design - Available for 5" & 6" Gutters*

*7 foot lengths x 30 pieces = 210 lineal feet per carton*

### *Gutter Sentry,*

- *Highest perforation count to handle heaviest rainfall*
- *Engineered, Gutters are 10 times stronger*
- *Gutters will not bend under weight of snow, ice or ladders*
- *Leaves and other debris will not accumulate in the gutters, easily blowing away.*

### *The ultimate Gutter Hanger and Cover in one.*

- *The unique **patented design** of Gutter Sentry turns your average gutter a complete box design, providing unequalled strength against bending, twisting and crushing. Gutter Sentry will never pull off your home to extreme weather, sag to snow and ice. The structure is strong enough to lean ladders on without crushing or deforming.*
- *The perforation system gives unequalled drainage, the 1/8" perforations are condensed to **20 perforations per square inch**. This allows the highest water drainage possible, able to drain more than 4 times the **heaviest precipitations worldwide**.*

### *Always recommended*

- *Use **Funnels, Wide Mouth Fast Flow or Form Fit with Drain Guards or Pipe Guards** to complete your Rainwear System !!*

*Keeps the underground drain tiles clear and clean from a clogging mess.*
